Nordic Research Cooperation for Better Health

Project 1: Explore a model for mutual recognition on ethical reviews

Project 3: Further Develop Nordic collaboration on clinical trials through Nordic Trial Alliance

The screenshot shows the website for the Nordic Trial Alliance. At the top, there are logos for 'norden Nordforsk' and 'NORDIC TRIAL ALLIANCE'. Below the logos is a navigation menu with 'Home', 'About NTA', 'Projects', and 'Contact'. The main content area is titled 'Nordic Trial Alliance' and includes a sub-header 'You are here: Home'. The text describes the purpose of the NTA: 'The purpose of the Nordic Trial Alliance (NTA) is to make it easier to carry out clinical research in the Nordic countries.' It also states the overall aim: 'The overall aim of NTA is to enhance Nordic cooperation on clinical multi-centre trials. Increased Nordic cooperation on clinical research will lead to a rise in the number of joint clinical trials and thus boost the attractiveness of the Nordic countries as partners in research. Such activities will also promote knowledge transfer as well as increased efficiency and research output.' Further down, it mentions that the NTA is based on established national networks for clinical research and will lay the foundation for increased collaboration between national and Nordic stakeholders. There are four buttons: 'For patients >', 'For researchers >', 'Currently recruiting clinical studies >', and 'Clinical trials explained >'. On the right side, there are sections for 'News' (with a list of recent news items), 'Events' (with a list of upcoming events), and 'News from Nordic media'.
